Year	2019-20
Field Visit/Educational Tour	Kanan Pendari
Date and time	22 October 2019, 7.30am - 8.00 pm
No. of Teachers participated	04
No. of Students participated	33
Content	<ul style="list-style-type: none"> The aim of educational tour was to fulfill the curriculum of lab course I of M.Sc. Zoology. Mr. Balram Kurrey Assistant Professor zoology aware students about pisciculture and animal behaviour. He said that pisciculture is a form of aquaculture as aquaculture is the scientific rearing and management of all aquatic animals. About wild animal behavior he aware students that wild creatures are shy creatures, at least where humans are concerned. They learn from their parents to be very mistrustful of humans, because they have no way of knowing whether or not we man them harm. When faced with a threat, wild animals believe they will survive only by fleeing, fighting, flirting or freezing. This educational visit motivate the students to applying pisciculture for livelihood and for further research purpose.
